## **DyMark Industries named as SABEX Business of the Year Finalist**

April 8, 2008

Every year, the Greater Saskatoon Chamber of Commerce honour the top businesses in a number of award categories. DyMark Industries was nominated in two award categories this year: Growth and Expansion and Business of the Year.

On April 8, 2008, DyMark Industries was named as a finalist in the Business of the Year Award category alongside two other nominees.

SABEX Business of the Year is awarded to a business that demonstrates excellence in the areas they consider key to their success, including profitability, customer service, growth and/or expansion, marketing and employment creation.

The SABEX awards were handed out at the Celebrate Success Gala Event on May 13, 2008 at TCU Place. Unfortunately, DyMark did not receive the Business of the Year Award, but felt fortunate to be recognized as a finalist in this prestigious category.

The award nomination and DyMark's place as a finalist for Business of the Year could not have happened without each and everyone of our DyMark team. Each team member, whether part of the shop fabrication team, technical/office staff or the onsite crew, plays an integral role in the overall success of the corporation. It is through the combined efforts, drive and determination of our team that allows DyMark to be honoured as a leading business in the Saskatoon area.

Congratulations to everyone for their contributions in making DyMark a growing, successful company. Here's to our continued success!
